Звіт до лабораторної роботи №1
З дисципліни "Web-технології та Web-дизайн"
на тему: "Simple landing page"

Виконала:

Ст.гр. ІР-11

Луцан І.З.

Прийняв:

доцент, к.т.н.

Іванюк О.О.

Львів 2025

Завдання:

Description: Create a landing page following the given design (Figma).

Requirements:

- Use of semantic tags (<header>, <nav>, , <footer>, etc.) wherever is necessary
- All fonts, colour palette, elements sizes must strictly **match the design**.
- **Pixel perfect** is also **not required**, BUT your website should visually match the design template (i.e. If the element is horizontally centred on the design, it should look centred on the website)
- All **class names** must not be meaningless (i.e. class="myClass") and should follow the same **naming convention**, preferably BEM, but you could come up with your own (just be consistent)
- **Basic cross-browser support** (website should look correctly on last versions of modern browsers (Chrome, Safari, Edge))
- For now, **responsiveness** is not required.

Висновок:

У ході лабораторної роботи було створено лендінг-сторінку відповідно до наданого дизайну (Figma). Під час виконання завдання було використано семантичні HTML-теги для покращення структури коду, дотримано заданої кольорової палітри, шрифтів і розмірів елементів. Сайт розроблено з урахуванням візуальної відповідності макету та підтримки сучасних браузерів. Для класів застосовано узгоджену систему найменувань, що забезпечує зрозумілість і зручність у подальшій розробці. Адаптивність наразі не реалізовувалася, згідно з вимогами завдання.
